This conversation comes at a critical time:

- 25% of San Francisco residents are seniors and people with disabilities.
- In 2030, there will be 100,000 NEW seniors in San Francisco, reaching nearly 1/3 of the City's population.
- Of San Francisco residents 60 and older, a full 57% lack basic economic security because of the increasing cost of living.

Dignity for all of our communities is the right thing to do. It's also **smart policy!**
