ALRP has remained open throughout the COVID-19 crisis. We continue providing free and essential legal services to all of our clients in the Bay Area living with HIV during the current pandemic. Get the latest updates and information on how to access services [HERE].

Making a Difference Every Day

With your support, ALRP provides legal support for an average of seven cases per day. To help tell the stories of the clients served and cases won, we launched a new section on our website, HIV Justice Matters, where you can learn more about how ALRP makes a difference. Recent success stories include:

- Accommodations secured for two clients in supporting housing who faced barriers to accessing medications due to building policies
- Housing saved and rent abatement and repairs secured for a client who faced eviction from his apartment of 12 years

These are just two of many. [Check out others...]
